

Zuni Zap

Children's Choice Zuni

Community Highlights

Fall Fun at Zuni- October has been a month of adventure, pumpkins, tricks and treats. We have enjoyed the cool weather and all the fun adventures we have had all month.

A Little Help Please! – Our older kids noticed we were spilling loose cups outside using our water dispenser. After a request and a small wait, a cup dispenser was delivered, but needed assembly. Our two older boys took the liberty of asking for the right tools and with little guidance attached our new cup dispenser. It was with their suggestion and help that we have made our water dispenser more efficient and environmentally friendly!

Creative Costumes – Our girls were feeling the creative Halloween Spirit. Over the month they have used our baby dolls as their muse to make costumes. Using the art supplies in the community they have made masks, wings, dresses and robes, to name a few. It has inspired a Halloween Day activity of making a costume for a stuffed animal you can bring to CC!

November Dates to Remember

Nov 10th – Field Trip

Rio Grande Nature Center

Depart 2:30

Return 5:00

November 20-21- Parent Teacher Conferences. We will be open at Zuni Elementary 7am-6pm. Please pack a non-perishable lunch.

November 22nd – Children's Choice Open @ Zuni Elementary 7am – 6pm

November 23-24- Thanksgiving Holiday. No School. Children's Choice will be CLOSED. Enjoy the holiday!

Trial and Error – Margaux held a Construction Club in October where we practiced building and creating. The marble run was the most popular, with all the pieces and possibilities we tired our best to make it a large run. Unfortunately, things don't always work out, and it tipped over. Rather than be discouraged we all managed to laugh off the accident and try again.

You can do WHAT with a Pumpkin?- Over the month, Lindsay ran a Pumpkin Science club in which we learned several fun ways to use a pumpkin. We grew pumpkins inside of pumpkins and planted them in our garden, explored the guts of a pumpkin by creating pumpkin slime, and excited our taste buds by making sweet, spicy, and sour toasted pumpkin seeds. YUM! We even made a pumpkin explosion using vinegar and baking soda. What's the coolest thing you've ever done with a pumpkin?
