

# Inez Informational

## Go Outdoors ~ March Theme

It was a great month to enjoy being outside, learning about nature, and having lots of fun together with our CC Family. The Birdwatching Club was a great way to look up and explore the trees and sky in search of different types of birds. We also had a bunch of fun playing a silly Children's Choice favorite game—CHEETO HEAD! Our staff and kids love being a part of the Inez Community and the Snow Heights Neighborhood. We did some clean-up work on the Community Garden and are set to put in plants and seeds in April.

## Children's Choice

Volume 3, Issue 9  
March 2018

### Reminders:

☺ Registration for Summer Camp is now open. Visit our website for pricing, locations, themes, and more!

☺ We offer before and after care options if your child is registered for summer school at Inez.

☺ The last day for Enrichment Classes is Friday, April 27.

## Solar Oven Club with Ella

We used science, culinary skills, teamwork, and a lot of creativity to engineer our solar ovens.

Each week, the students completed a part of the construction, culminating in our final treat, s'mores!

**Thank you to Mitchell who volunteered to help serve popcorn during our 1st Annual CC Inez Birthday Party!**

## Question of the Month: If you were an animal, what would you be?

A lion, because it would be fun. ~Jeremiah, grade 3

I wouldn't want to be any animal because I want to be a human with my family! ~Jonathan, grade 4

I would like to be a wolf because I love wolves, they are so strong. ~Andrew, Kindergarten

A bunny, because I want to hop around! ~Anderson, Kindergarten

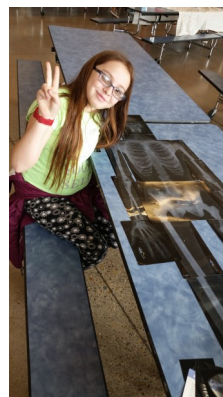

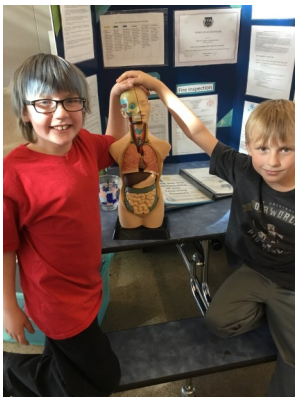

A penguin, because I like penguins and I learned about them for my science project. ~Autumn, grade 1

A horse, because I would like to help people, and I like horseback riding myself. ~Peyton, grade 3

A panda, because they are my favorite animal, and I have a panda shirt that says hello and goodbye! ~Elaina, grade 4

A cheetah, because they are my favorite animal and I really want to run fast! ~Rhyanna, grade 3

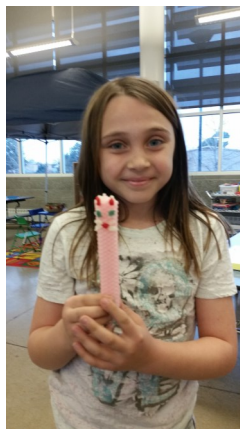

## Scenes from around the program

## Candle Making Club

By Riley G. and Chloe S.

We wanted to be in the candle making club so we could make candles for our houses. It looked fun. We made three different kinds: One with crayons to make it colorful, but it took a little time to make it look good. Then we made one with wax pebbles in a jar. Then we made one out of beeswax that we rolled up in a spiral. We had to squeeze it together to make it stick and we got to decorate it with some of the smaller pieces. Chloe made one for her auntie. Riley's dad put her candles in the kitchen. We would both like to try it at home sometime too.

## Rocks and Gems Club

We spent our first week cracking open geodes to discover what is inside. Safety first—you can see we wore protective eye wear! We have also been using a tumbler to polish rocks. We change the grit mixture in the tub to make the rocks smoother, shinier & more brilliant. We can't wait to see the final result!

## March Field Trips
