Community Highlights

Weird Science is the best science!

- Mike and some of our community had fun conducting a science experiment: trying to find out what kind of water will dissolve a bath bomb the fastest? "We made a gross water with hot chocolate powder and hot sauce," said Aiden. Ice water and tap water were also tested. We found that our gross water dissolved the bath bomb the fastest, at 15 minutes.

Celebrate Your Stuffed Pet! – Stuffed Animal Day was a fun day where we channeled our inner tailor and fashion designer to make accessories and outfits for our stuffed friends. "I made a collar and a head band," said Daizy. "We had Harry Potter fabric- it was so cool," said Darren excitedly, 'I can't wait to try and make something awesome.'

Donations Appreciated!

- Gently Used Art/Office supplies
- Board Games
- Boxes of Various Sizes
- Tape!

If you have any questions about a possible donation Just ask a CC staff!

Dates to Remember

February 18 - Presidents Day
No School Children's Choice will be open at Zuni Elementary 7am-6pm. Pack a non-perishable sack lunch!

Register online if you will be attending!

February 14– Love you 'Pizza's' – Pizza Party. T.G.I.T with pizza, making valentines and playing some silly Valentine-themed games!

March 7-8– Parent Teacher Conferences. Online registration will open soon for these days. Site location TBD.

Clay and Paint: We have a HUGE creative community at Zuni. Almost everyone loves playing with clay or painting or making something creative with their hands. Bea led a 2 day activity where we got to make things out of clay and paint them the next day. "Its relaxing, I like it," said Caelyn, "I like clay and painting." Sometimes we just like to make things for the sake of making them and they never make it home. At Zuni we really try to focus on the process over the product so that our kids can enjoy talking and laughing with each other while they engage in an activity where they made something individually but are in a collaborative environment.

Team Work- In Older Kids Club, it has become a tradition to build a gingerbread house in January. The kids split up into teams and have an hour to build a gingerbread house however they see fit. They are then judged on the look of the house, team work and cleanliness. Staff ask them questions about making the house including their favorite part of the process. Destiny said, "frosting and getting to play with candy to make something!"
