

## Hubert Humphrey February 2019

### February is “Time Warp” Month at Children’s Choice!

This month at Children’s Choice we are focusing our curriculum on different periods of time. We will be running activities about Vikings, Egyptians, dinosaurs, and more as we work to teach the children about history and other cultures around the world.

### Enrichment Classes Have Begun!

Enrichment classes began in January. If you would like to change or add a class for your child please email Erik at: [huberthumphrey@childrens-choice.org](mailto:huberthumphrey@childrens-choice.org) or speak with a staff member in person.

### It’s Not Too Late to Join Our Continuous Quality Improvement Team!

We meet once a month, usually on a Tuesday, to help go over data collected from surveys and come up with an improvement plan for our program. We will hold our next CQI (Continuous Quality Improvement) Team meeting on Tuesday, February 26<sup>th</sup> at 6pm in the cafeteria. We will be finalizing our goals for the spring and next fall. We will be meeting over dinner and, as always, children are welcome to attend. We hope to see you there!

“Food II” Club with Ryan was a great morning activity we ran in January. Each child got their own bowl of fruit and vegetables that they picked out to make their individual juice with. We practiced safety while using the electric juicer and patience while waiting in line for our turn. Overall the kids had a great time and got to start their day with a healthy serving of fruits and vegetables!

### Building Our New Bookcase Together!

We wanted to add more books to the main program space so we bought a bookcase with wheels and the kids helped put it together. It was fun learning how to assemble the book case and use real tools.

### Soda Explosions with Connor!

During this child-led activity, we tested the chemical reaction of Mentos and three types of soda. We had the children hypothesize which soda would shoot the highest between Sprite, Coca Cola, and Coca Cola Diet Caffeine Free. Most of the kids thought the Coca Cola would spray the highest and they were correct!

### Black Light Art Club And Glow Slime

During Black Light Art Club we made a lot of art with highlighters and even made glow in the dark slime. The kids really loved playing under the black lights we set up. They were surprised by what colors glowed under UV light and which colors did not glow.

### Our Field Trip To Silva Bowling Lanes!
