

March 2019

Important Dates

March 7th and 8th Parent Teacher Conferences

March 11th-15th Spring Break

March 17th St. Patrick's Day

For absences or to talk to the staff directly call 505.504.4557

Or email us at northstar@childrens-choice.org

To speak with the Children's Choice office call 505.296.2880

Science and Magic!

Sarafina showed a group of kids how to make magic milk! The potion requires dawn dish soap, milk, cotton swabs, and food coloring. The soap lowers the surface tension of the milk so the color can move. The soap also reacts with the protein and fat in the milk to allow pigments in the food coloring to get pushed around.

The Rubik's Cube has made a huge comeback lately with kids of all ages. It is not uncommon to find small groups working together to solve the cube with algorithms or an individual focused and quiet. The cubes get passed around and shared. The best part: it is teaching logic and problem solving while improving memory.

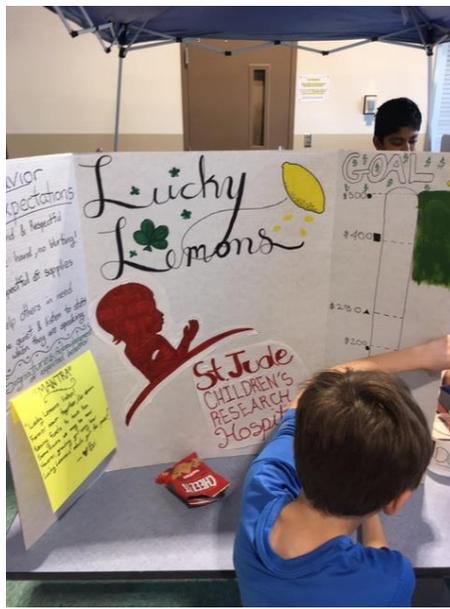

So many Games!

So little time!

Two friends make smoothies in the snack area using frozen fruit and milk. They doubled up the cups so the fork prongs couldn't poke through, but quickly realize the cups were no match for sharp forks. They added paper towels under their cups to prevent a major mess from their "blenders."

Lucky Lemons

Our Fifth Grade Club has been raising money for St. Jude's Children's Hospital for their community project. They have all made or donated items to sell to help raise the money. Items can be purchased from any Children's Choice fifth grader. They are also accepting cash donations can also be made. If you have any questions or would like to make a donation, staff are happy to direct you to the Fifth Grade Area!

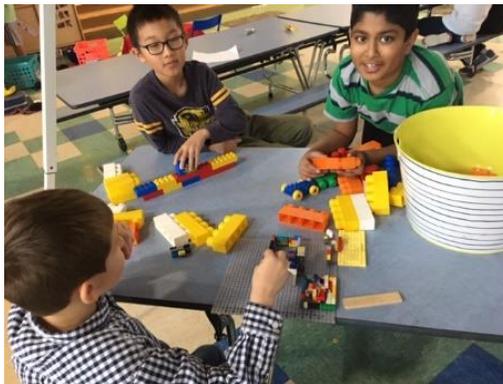

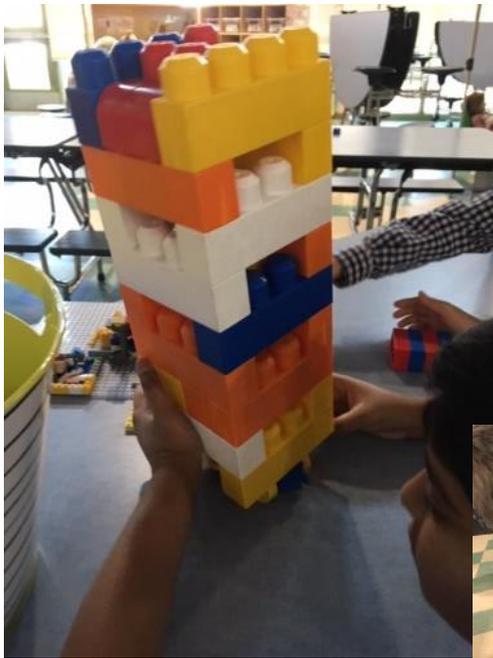

Indoor Obstacles

Pretending to be secret agents, the kids made their way through a string obstacle course. Do not touch the "lasers" or they might burn you! Good thing we stretched first!

The Construction Area is always bustling with busy hands and creative ideas. We love to see the mix of individual building and cooperative play that happens in this area. It is important to the kids who are so proud of their work that we take pictures to show their parents at the end of the day!

Chill Time

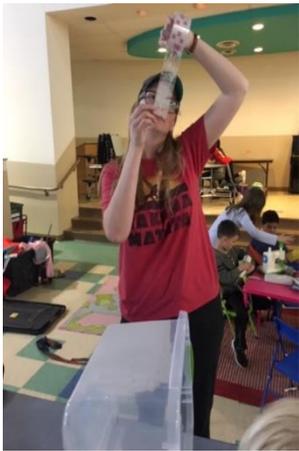

The Quiet Area is a great spot to pick up a book and relax or cuddle some pillows and chat with a friend! These girls look very comfy!

Who Done it?

Sarah led a mysterious club in which staff stole cookies! The thief's fingerprints were all over the box and the kids had to fingerprint each staff to match up the prints and figure out who the culprit was! After taking magnifying glasses to each set of prints, the kids matched Bri's prints! She stole the cookies! Chase ensued through the cafeteria and everyone got to eat cookies in the

Here are some moments we captured in the community last month!
