

Sombra Del Monte November 2019

November at Sombra Del Monte

We will be running the following clubs: Bracelet Club with Anna, Free Art Club with Marie, Painting with Nature Club with Lee, Card Game Club with Shuristeen, and Gratitude Gifts Club with Vania.

Family Night at CC

We celebrated Lights on Afterschool with A Carnival Family Night on Thursday, October 24th. Reisha said "I played *Don't Let the Balloon Touch the Floor* with my friend and Big Connect Four. Me and my dad also played a little bit of tag outside." Juliet said of her experience, "My mom, my sister, and my dad all came with me. My little sister played *Pin the Bow on Mr. Bones*. We tried playing that Connect Four. After face painting me and Sophie played that *Throw the Ball at the Bottle Thing*." Eli said he was playing a game outside where he was "tossing bean bags at the other board. Brian, my little cousin, my mom and Brian's mom were with me." Kendra explains the picture below, "We were doing Donuts on String! "

Thank you to everyone who came to Family Night!

Children's Choice
Volume 18, Issue 4
November 2019

Reminders:

Tuesday, November 5th

Five Minute Science Experiments Club with Marie

Baking Soda and Vinegar Exploration

Kendra said she wanted to join the club because it just looked fun. "We had these pans and Marie put baking soda into the pan. We had straws and put them in a cup of vinegar and used our finger to cover the top. We put it on the baking soda. It expanded. We also dyed the baking soda with food coloring."

Can an Egg Glow?

We did a glow in the dark egg experiment. We put eggs in jars of vinegar with highlighters and predicted what would happen. Antonio said, "I thought the egg would glow." Jordae reports "I didn't think the eggs would glow but they did. That surprised me a little." Shaun said "I liked playing with the egg. It was bouncy."

Welcome Back Arisbeth!

On Monday, October 21st we did a Guacamole Club to celebrate Arisbeth coming back. "She really likes avocados. I joined because I like food." Tianna said. "I joined because I wanted to help cut up things and because I was happy Arisbeth was back. The onions actually made me cry and Joseph too. Shaun put some soap and water on his eyes." Kendra said. We also cut up jalapeños, cilantro, and avocado, of course. We kept the ingredients separate so people could choose what they wanted. Jeremiah didn't want to try the onions but said he would if we cooked them. So Carlos and Jeremiah helped make some cooked onions. We put olive oil in a pan and cooked the chopped onions on low to medium heat, stirring occasionally for about 5-10 minutes. We let everyone who wanted to try them.

The Science of Music Club with Lee

On Tuesday, October 15th, we filled cups with rice and sealed them with duct tape. Then we learned about rhythm made music together.
