

# John Baker News

February 2020

Our visit to the Albuquerque Museum was fun and enriching. We have more field trips planned for the years but this one is always a highlight. Take a look at some of the pictures on the back.

The John Baker Staff

## Do you wanna dance?

Sometimes you just gotta move to the beat and there's no better place to get down than our music area.

## Rain, Rain go away...

We don't have many days when rain keeps everyone inside but, when we do, building forts with blankets and blocks makes the day a lot of fun.

## Egg Drop

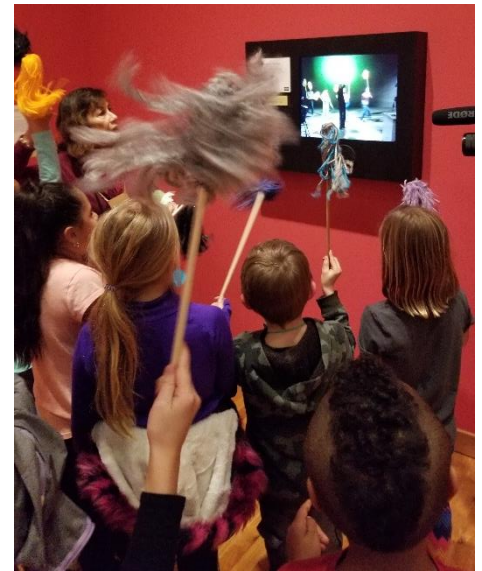

More fun with science in Dylan and Issac's club. This time they tested principles of motion and momentum.

## Albuquerque Museum

During our visit, we got to explore the Jim Henson exhibit, seeing firsthand how the puppets work.

## Let's Get Creative

After touring the exhibit, everyone had the opportunity to make their own puppets.

## Show Us How It's Done

When we returned someone was inspired to try her hand at her own puppet show.
