Water Play Hour 12:00-4:00				

Sizzlin' Sombra Summer

Going With the Flow

As we patiently gather more information about what the school year entails, CC Summer Camp is here to stay for those who need us! Kids will have a place to be engaged and socialize with peers through at least August 21st in our current environment. For all of those involved (kids, parents, staff), this summer has been a true test of going with the flow and making the best of our situations. One thing has never changed—Children’s Choice will always be a safe place for kids to be themselves and create lasting memories. Our mission is to facilitate the positive development of children, and nothing can stop us from attaining our goals!

Reminders:

-The Last Day of CC Summer Camp HAS BEEN CHANGED to August 21st. All APS Schools are scheduled to begin virtual learning on August 12th. On-Campus classes will resume September 8th.

-Kids may bring personal electronic devices from home to be used for a limited time each day.

*CC is not responsible for lost, damaged items.

-Bring personal sunscreen bottle each day.

-Breakfast and Lunch are provided daily by APS, but kids are welcome to bring food from home also.

Pod Life

Pod 1

Pod 1 gets the job done. From picking up trash around the school campus to building elaborate cardboard forts, when these kids have a project in mind, they work together to make it happen. They spend their days tossing a football around or making rubber band friendship bracelets. They have deemed themselves the “Quarantine Club.” Bella M. said, “I think my fort is done. I’ve been working on it every day, trying to make it better.”

Pod 2

Pod 2 has been learning about New Mexican culture and history recently. The Kachina Doll is a symbol of good fortune and connection to the natural world. Pod 2 is hoping that these hand-crafted dolls bring rain for their garden and good luck to their pod for the rest of the summer. One of the artists, India J., said, “I think these dolls are really cool. We made them out of cardboard, clay, and yarn.”

Pod 3

Pod 3 just keeps on truckin’. These kids have had to transport their art wall to the cafeteria, but that means they can just make an EVEN BIGGER art wall. When they are not drawing baby Yodas or coloring Trolls pictures, Pod 3 enjoys to play on the grass field with air-powered rockets or knock down some pins with a bowling set. Korben S. said, “Our rockets go really, really high!”

Pod 4

Pod 4 works hard and plays hard. While these kids still thoroughly enjoy their mealtimes and their Friday Food of the Week, they also take pride in the little things throughout the day. They have started to make bead necklaces to show off their individual personalities, and they are always challenging each other to strive for more. Cedric E. said, “We practice a lot. I have gotten really good at pickle ball.”
