Welcome to Hubert H. Humphrey

We've been busy settling in to our new environment.

We kept the same groups in group one and group two. The two groups have an extra space each that is used for free time activities. The first space is our educational space, where the kids keep their devices and chargers so that they stay in one space. They have their own tables again and are able to spread out a little more.

When part of the group is ready to take a break and a staff member free to take them, the kids go to the free time space. The space has activities and books that the kids may choose from. The kids are able to rest and relax or even shoot a game of pool.

The pick-up and drop-off is a bit different, but everyone seems to be doing well. Remember, the teachers use the same route in the morning so be sure not to park in the lot or block the opening. In the afternoon, feel free to park and wait for your child.

Remember to send you children with fully charged devices, the charger, and headphones. The children do well keeping the noise down, but it does get distracting to have several classes happening in the same room.
