### Sombra's Stories

#### Organization Is Key

In order to help the kids be as successful as possible, we have taken the initiative to create schedules, set alarms, and manipulate the environment in ways that maximize our efficiency and relieve some of the stressors that virtual learning can create. One of our staff, Monica, is with the kids throughout the day for all of their school needs. She implements systems, such as the sticky note schedule, that helps ensure that the kids stay on task and do not fall behind on any of their school work.

#### Reminders:

**-APS HAS CHOSEN TO DO ONLINE CLASSES FOR THE ENTIRE FALL SEMESTER! CC WILL RUN THROUGH DECEMBER 18<sup>th</sup>!**

**-Please make sure kids have their necessary school supplies each day, including laptop/tablet and chargers. Daily Schedules are also very helpful for us to keep up!**

-Kids may bring personal electronic devices from home to be used for a limited time each day.

\*CC is not responsible for lost, damaged items.

# Pod Life

## Cafeteria Pod

The Cafeteria Pod has been saving the world this week. When these kids are done with school, the real work begins. The Avengers Club has been roaming Sombra, ridding the school of evil. The team is complete with Hulk fists, Captain America shields, and even a villain—Dr. Doom. One of our staff members, Izzy, has helped the kids’ visions of their super hero personas come to life with the resources available, such as cardboard, popsicle sticks, and paint.

Avengers Club: Korben has a fascination with super heroes. Good thing we do too!

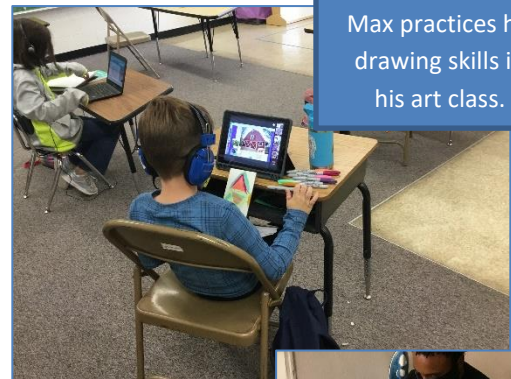

“We fight invisible enemies. My Hulk Smash is super powerful.”

# 6 Feet Apart

## Gym Pod

The Gym Pod has started to transition out of the Gym and will combine with the Cafeteria Pod next week. The kids are excited about the move and are eager to meet some new friends. This frees up the Gym as an activity space now that the weather is starting to change. When the kids are finished with school, they have been learning about dinosaurs. Allan has been perfecting his scientific drawings, and he has even started to build models of his favorite dinosaurs.

Max practices his drawing skills in his art class.

Izzy helps Dominic unwind after a long day of school by designing some melty beads.
