Mini Magazine Club With Chris

Chris led an activity where the kids each created mini magazines. They learned the uses of magazines whether it be for entertainment or educational purposes. Then, they made a magazine based on their own interests.

Paper Boats

Anna O. had an idea to see if her paper boat would float so we got a container and filled it with water to try out some paper boats! After a few tests, it worked! Next, we wanted to try a cardboard boat and we even got a few others to make their own paper boats for testing.

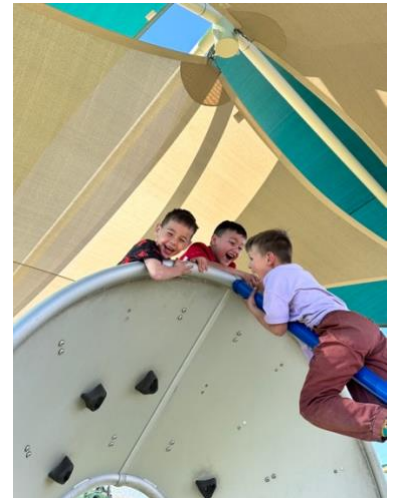

Anna: "I learned that the boat will float with cardboard and paper!"

Hayden: "I wonder if the tape will help it float?"

Alex S: "My paper got all wet and now I have a tape boat."

Our Field Trip to A Park Above

This week we took a field trip to A Park Above and the kids had so much fun exploring this amazing place. We had some who had been before and they took their classmates on a tour of the park to show them their favorite spots in the park.

Our Celebration of Learning Art Project

For our art auction piece, Mikaila is working on getting as many kids as possible to make a reaction painting to the question “What’s your favorite thing about being a kid?” after all of these individual paintings are done, the plan is to sew all of them together to create one cohesive piece.

So...What's the best thing about being a kid?

Mayzie: "Being with Anna"

Anna: "Playing at the beach"

Hayden: "Love! And watching sunsets"

Abigail: "Playing at the park"

Amaya: "Being with my cat"

Henry: "Recess"

Grant: "Having fun, I'm pretending that my arms go down to my feet. Now I have to paint the sky blue."

Marilou: "My favorite thing is my mom"
