Interview of the week: Scarlett
 -Nature's Paintbrushes
 -Dodgeball Championships
 -Paper Boat Survival
 -What's New at Hubert Humphrey

Hi Scarlett! Are you having fun at Children's Choice! **Oh yes, I can do anything here!** Oh, I'm so glad you like it here! What grade are you in? **Oh, I'm in 1st grade.** **Ms. Hermanson is my teacher.** That's awesome! **Did you know Ms. Hermanson is my favorite teacher?** Yeah, she is a good teacher. What is your favorite part of school? **Definitely recess!** Recess is definitely the best! What is your favorite color? **Turquoise.** That is a beautiful color! Do you have any pets at home? **I have 2 cats and a snake.** Wow, tell me about your snake. **She is pink, a corn snake and her name is Ellie.** Snakes are my favorite animal. Wow, I don't know about snakes, I think they are a little scary. **Don't worry Ms. Ashleigh, she is a nice snake.** Well that's good to know! What are your favorite foods? **I like bagels with cream cheese and puffy Cheetos!** Puffy Cheetos are my favorite food too!

Dodgeball Championships

Well, the dodgeball tournament all came down to one final championship set: Arroyo del Oso vs. Hubert Humphrey! With the Hubert Humphrey Angry Penguins, making their way through the bracket undefeated, we were so excited and hopeful going into the championship set!!

Once the Arroyo del Oso team arrived at Hubert Humphrey, we did a quick review of the rules, reminded everyone that just because there is a trophy, that doesn't mean that we forget to have fun!!

We are proud and honored to report that the Hubert Humphrey Angry Penguins, won the set 2 games to 0!! Not only were our Angry Penguins undefeated through the whole tournament, but we are the 2024 Dodgeball Champions!!

WILL IT FLOAT?

Have you ever been holding something in your hand and wondered: Will this float in water? Well after today, here at Hubert Humphrey, we don't have to wonder any more. We filled a plastic tub and filled it with water to throw random items in to see if they would sink or float?

We discussed the science behind gravity, flotation and density. But, mostly we just had fun throwing things in water!

Animal Humane Society

We have spent the last few months making Blankets and toys for the cats and dogs for the Humane Society. We will now be collecting donations for treats and food for the animals.

We are requesting donations of Cat & dog food (dry & wet, grain-free & regular), Royal Canin Mother & Babycat (dry & wet) Royal Canin Puppy Starter Mousse (canned food) KMR kitten & puppy milk replacer

Nature's Paintbrushes

As most of you already know, here at Hubert Humphrey we love art! But, we also love nature! So, our caregiver Ethan designed an activity to combine the two: Nature's Paint Brushes! The activity started with a nature walk here at our school; exploring our local nature and determining which parts would make the best paint brushes. After a brief exploration, several selections were made, to include: sticks, leaves, pine needles, and grass.

Then we got to the fun stuff! Painting with our brushes seemed to create a variety of textures and effects that we really enjoyed!

Nature Walk Group: "Wow, there's a lot of stuff we can paint with!"

Elias, age 5-left- "I could paint my whole paper really fast!"

Olivia, age 8-top right- "This is going to be fun, messy but fun!"
