# XIOMARA J.

Xiomara is an 8-year-old 2<sup>nd</sup> grader that has been attending CC for the past two years! Her favorite thing about CC is getting to hangout with her best friends in the whole school. Xiomara's favorite activity that she's done recently was Zoey's "Let's Make Soup!" activity because it was messy and she really liked the soup.

Xiomara's favorite school subject is math because she enjoys solving problems, so she thinks her future career will be something that has to do with math. Her least favorite thing about school is how long it is. Oddly enough she isn't looking forward to Summer because she doesn't want school to end, but she is very much looking forward to being at CC this Summer!

If she could go anywhere in the world it would be Paris or Japan. She specifically wants to see the cherry blossom trees because they're beautiful. Xiomara loves plants and wants to look into starting a gardening club at CC!

Xiomara recalls the first time she had a Taki and has loved spicy food ever since. She even gets jalapenos on her pepperoni pizza.

Xio's one piece of advice to a kindergartener would be "when you get to 1<sup>st</sup> and 2<sup>nd</sup> grade try your hardest!"

If her parents read the newsletter, she wants them to know that she says "hi".

# CC Art Trade

To prepare for this year's upcoming Celebration of Learning, we made an agreement with 3 other CC sites to do an art trade in which we all get to share 4 canvases and add our own style each turn! This was our very first one and we decided to take a more abstract approach and everyone got to do whatever they wanted in their own little corner!

We're so excited to ship it off to the next site and add our own flavor to the incoming canvas!

"Does this stuff come off? I'm gonna look like Barney!" Majeztica (11)

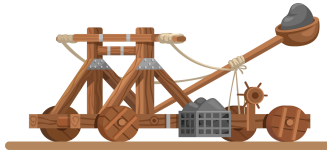

"I'm making cotton candy cloud art!" GiGi (9)

"Do you like mine? I don't even know what I'm doing" - Aiden (8)

# DIY CATAPULTS

Make your own catapults was a blast! We made several different kinds of catapults we designed all on our own!

Some of us learned how to tie the sticks together with rubber bands and we helped each other out. Some didn't launch well and needed to find other ways to redesign theirs, but once they did, they had a lot of fun with their catapults.

"I just put stuff together and it worked" - Jayden (9)

"I had a hard time with the rubber bands" - Tessa (6)

"I want all the cotton balls to launch!" - Romeo (5)
