LENA H.

Lena is an 8 year-old 2<sup>nd</sup> grader that has been coming to Children's Choice since kindergarten. Her favorite thing to do at CC is spend time with her friends. Cook and Create Club was the most fun she's had at CC in recent memory. Baking has always been one of her favorite things to do at home. Other than baking, Lena enjoys playing volleyball!

Her favorite school subject is art because she thinks it's so fun. She thinks that painting is the most fun part of creating art and loves painting animals specifically! Lena would also like people to know that her favorite color is purple. Her least favorite subject in school is music because it gets too loud sometimes.

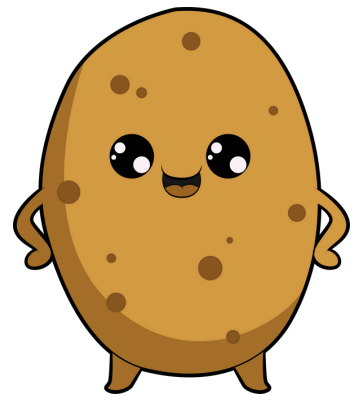

Lena has a plethora of potential career paths! She is interested in being a hairstylist, dancer, actor, or singer when she grows up. Her two primary aspirations would be an actor or hairstylist.

Her favorite holiday was (at first) Christmas, but then she quickly changed it to "her birthday."

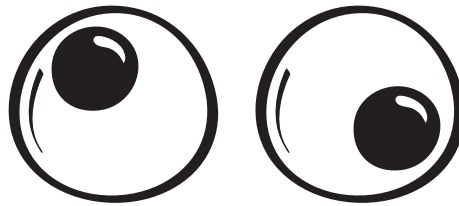

Lena's one piece of advice to a kindergartener would be to "learn how to read and write and learn their ABC's" because it's difficult to learn anything else without knowing those things first.

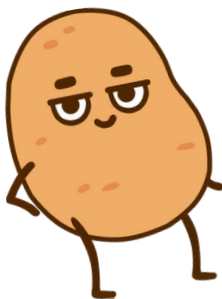

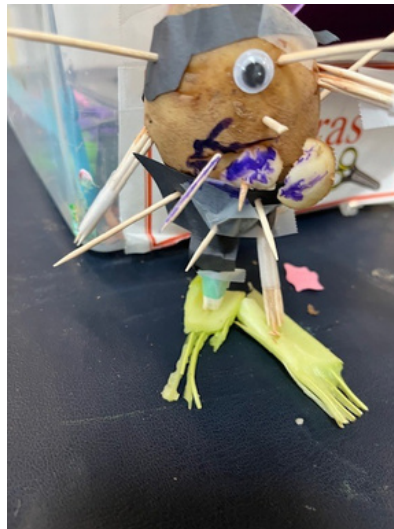

# Potato Heads

Make your own potato head was a fun learning experience for us! We all got potatoes and designed our own Mr. Potato heads. We used toothpicks as appendages, googly eyes and paper to decorate them the way they wanted to. It was a little harder for us to make regular Mr. Potato heads, as we had to navigate how best to attach what they wanted onto a potato, but overall they all turned out unique and we are so proud of them!

I covered mine in tape because I want mine to be a Mr. Ghost potato head!  
- Alayna (6)

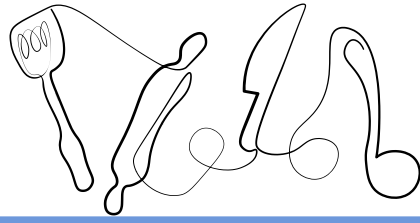

"Mine has a top hat! He's my little gentleman." - Jayro (10)

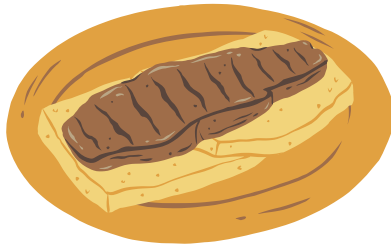

# Cook & Create Club: Carne Asada Fry Cups

In this recipe tasting session, the kids assembled mini Carne Asada Cups using tater tots, steak, cheese, and toppings. We used muffin tins to shape tots into little bowls, then filled them up with flavorful ingredients. The group worked in pairs to build their own cups, allowing for some creative flexibility with toppings like pico de gallo, guacamole, or sour cream. This activity encouraged independence in portioning and recipe customization. The kids enjoyed the hands-on assembly and learned how traditional dishes can be adapted into fun, bite-sized snacks.

"It looked like a taco bowl, but tiny and fun to make!" Elaysia (11)

"I don't usually like steak, but this was actually good!" - Azaliya (9)
