## MEET BELLA!

Bella is one of our fabulous first graders! She likes to play with her cousins and go to the park to play on the monkey bars.

Q. What is your favorite thing about Children's Choice?

A. Art Area because I love to draw lots of pictures!

Q. If you could travel anywhere, where would you go?

A. To the mall because then I can buy clothes and shoes!

Q. What do you want to be when you grow up?

A. A nail technician, I want to do other peoples nails and make them look pretty!

## **PAINTING BUBBLES**

This week in Watercolor Club the kids learned how to paint bubbles just by using paint and cups! They used the cups to make their outline and a paintbrush to blend the colors together! The kids experimented with shading and using different colors to give their bubbles different effects!

“It’s ok if the paint falls into the cup. It helps put more paint onto the paper when the cup is upside down” -Bryn

“I’m cleaning the cup so I can use a different color.” – Kiah

“I like bright colors for my bubbles because its so pretty.” -Heidi

## **DISNEY FUN**

This week was the first week of our Disney Club and the kids made butterflies from Encanto! First, they used markers to make their design on a coffee filter, then they used a spray bottle to spray water and watched the colors move and blend together! After the coffee filters dried they used pipe cleaners to bunch the wings together to make the body and antennas of the butterflies.

"I really like the way my colors came out!" -Grace

"I made a home for my butterfly!" - Ezekial

"I've made five butterflies already! I can't wait to make more!" -Kaidyn
