Jackson and Jacob wanted to play 4-square, but Jacob didn't know how to play. Jackson took some time to show Jacob how. It took Jacob some time before he got the hang of it. When Jacob was struggling, Jackson would tell him, "it's okay, we can try again," or, "let me show you one more time how to do it." Together the boys had a great game and learned from one another!

Elodie and Emma have been interested in making wishes on angelic numbers like 11:11, 2:22, etc. They started a club to share the meaning of the numerical and astronomical meanings of them. They had the kids write down a wish or use angelic numbers to store in a bottle as their activity. "I put all different Angel numbers in each one and they're in rainbow order."-Elodie

This past week, Older Kids Club finalized their bake sale! Here are a few photos of us preparing the brownies. It's safe to say that they were a hit! Older Kids Club ended up making \$754!! We are very proud of each and every one! With their earnings, they will go shopping at Albertsons and drop off the groceries at the Albuquerque Free Fridge. We couldn't have don't this without our wonderful community! It was a great experience.
