Entomology Club

Lots of kids have expressed that they love catching insects and want to know more about them so I thought it would be nice to get them materials to help them do it carefully and efficiently!

Jesse: I caught 7 grasshoppers!!!!!!what do they eat?

"Well let's think, you're finding a bunch out here so that means they are eating something around here.

Jesse: HMM grass? I'm gonna go get some grass!!!!

Camden: LOOK AT ALL THESE BUBBAS!! (boxelder bug)

"Did you know that those bugs are an invasive species "

Camden: Don't you say that about my bubbas! Bubba!!
:o

Kite Making

We decided to make some experimental kites. We had chopsticks, straws, tissue paper, kite string, yarn and butcher paper.

Josie- Mine is gonna have two colors! One side pink and one side with blue!

Tony- My dad is going to be so proud of me for making a kite with you!

Bexley- My kite is not experimental because I have made one before. You have to have a sufficient amount of string if you want it to fly high!

Summer Fun

Since it's starting to get a lot warmer I thought it would be fun to do activities that include working with/eating fruit!

The kids and I scooped out watermelon to make watermelon balls.

After we finished Sawyer, Westley, Trey, Issac and myself decided to scoop the remainder of the watermelon clean to make helmets out of the rind.

Sawyer: WE THE WATERMELON CREW

Westley: We should make a secret watermelon crew greeting

Issac: 🍉 WATERMELON SUGAR!!!

Monday 5/8	Tuesday 5/9	Wednesday 5/10	Thursday 5/11	Friday 5/12
