# CC OSUNA CHRONICLES

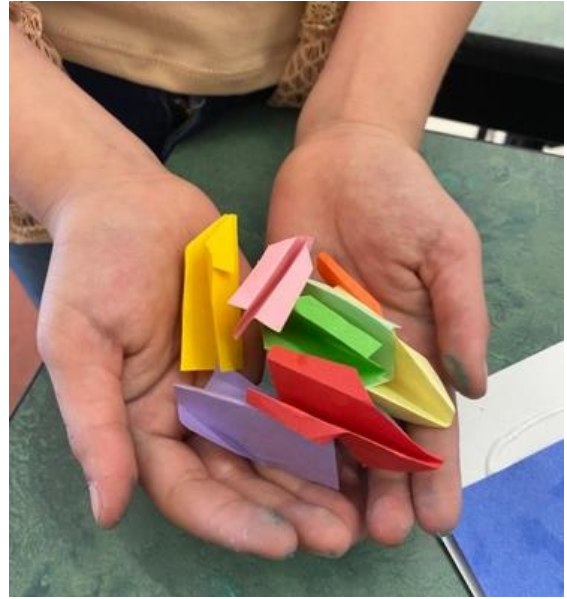

## Getting Creative

Recently the kids worked on a variety of art projects. Some used gems, popsicle sticks, straws and lots of glue. One did a boat in the middle of an island, and one tried to make what it would look like to be in a different world. Some others did portraits with glue and mini airplanes, and one kid made a friendly pet octopus that could fly!

Allisity: look Pri, I made mini airplanes for everyone.

Desiree: I really don't know what I'm making, probably a place where umm, I don't know maybe a different world.

Weston: I'm trying to do a portrait or like a Roblox character but with glue.

# STEM BUILDING

On this day the kids put their brains to work and got creative with marshmallows and toothpicks. Some created pyramids others created towers, some even made some snowflakes. Of course, their creation didn't last very long with the temptation of a sugary snack, so many of them ate every single marshmallow from their creation.

Tray- How long do we have to wait before we eat all the marshmallows?

Greyson- I think that I can make a swirling tower or staircase.

# CC KID INTERVIEW

Hello my name is Jaxon I am in 4<sup>th</sup> grade here at Osuna.

*What is your favorite part about coming to CC?*

I love getting to play outside especially when I run Soccer Club. I also really love playing games on the field and kicking it with the staff. Hopefully this year we can create a soccer team.

*What do you want to be when you grow up?*

I really want to become a professional soccer player. Messi is my favorite player but I also really like Ronaldo.

*What makes you unique/what's your favorite thing about yourself?*

Playing soccer is my favorite thing I do and I am really good at it because I am super-fast.
