Fun with Pipe Cleaners
Hayden and Phoenix were making figurines with pipe cleaners. Phoenix said “I made a snail and a dragon fly, I need a butterfly now too.” She told us how she saw two butterflies outside that must’ve been sisters and wanted to make those next. Hayden made a knight and was trying to figure out how to make it stand up on its own.

Spring Sports: Soccer Club

Here is the Soccer Club right before they started playing a game. Julian was going to be the coach and the referee for the day so he was explaining rules and with everyone. The other kids were telling each other to listen to Julian as he was trying to explain the rules to make sure everyone was on the same page. After everyone agreed on the rules they posed for a silly picture.

Creativity and Resourcefulness::

DIY MINI GOLF COURSE

A handmade mini golf course was created by a super-talented group of kids! They were given basic tools and created amazing and unique designs. The coolest part about this club was that the courses were never-ending. All of the kids helped to create separate obstacles and decor that could be mixed and matched to create new courses. They spent a few days building the course, making ramps, tunnels, and buildings and decorating all of them to “make it look professional”—

Avianna. Next they set up the courses, which proved to be rather difficult because each obstacle was made separately; they weren't entirely sure how to connect them to one another. After some rearranging they ended up with three separate courses. There were a few opportunities for improvement that came up during the time we played. The first one was that we definitely needed more golf clubs so more people could play. The other issue was that some of the obstacles had holes for the golf balls that were a bit too small, so they had to hit the ball perfectly or it wouldn't go in. Next time we will make sure to make the holes a bit bigger; we will definitely be doing this activity again. The kids already have ideas for new obstacles to add to our course. “Next time, I’m gonna make a catapult.” - Asher. The Mini Golf Club was fun for all ages; we literally had at least one kid from every grade helping on this project!

“This ramp has two ways up; one is the hard way and the other is the extra hard way.” - Amaya

“I’m gonna make this castle look so good, you're gonna be so jealous.”
-Avianna
