Summer Send Off From The Director

As we close out the school year, I want to take a moment to express my sincere gratitude for the opportunity to serve this community. Thank you for welcoming me in as the Associate Director, and now into the role of Director at North Star. It has been an incredible experience to grow alongside such a dedicated team, supportive families, and amazing kids.

This year has been filled with learning, laughter, and meaningful moments that I will truly carry with me. I am grateful for the trust and support that has been shown throughout this transition, and I look forward to continuing to build on the strong foundation already in place.

As summer begins, I hope everyone enjoys a safe, restful, and fun break. Thank you again for your continued support. I am excited for all that we will accomplish together next year!

Magnetic Minecraft Mania

Kids used Minecraft magnetic cubes to bring their imaginations to life by building houses, towers, and entire worlds inspired by the actual Minecraft game! Kids carefully designed their creations to look just like Minecraft worlds with block-style homes, pathways, and colorful structures. They worked together while exploring their creativity, problem-solving skills, and teamwork. One child shared, **“We made it look exactly like Minecraft!”** Overall, the activity encouraged collaboration, creativity, and hands-on learning while allowing kids to recreate and design their own Minecraft-inspired villages.

Capture The Crown

During this activity, kids worked together to capture the opposing team’s crown without getting tagged! The game encouraged kids to use teamwork, strategy, and quick thinking while staying active and having fun. Players had to carefully plan their movements, think ahead, and decide the best way to approach each challenge. **Mia shared, “I like how we had to run really fast and be quick when trying to get the crown!”** Overall, this activity helped kids strengthen their problem-solving skills, practice strategic thinking, and learn how to approach challenges in different ways while enjoying friendly competition.
