CC Inez Newsletter

November 9-November 20

Welcome

Call for Members

Welcome all families,
Please make sure you check out our activity calendar, we don't want you to miss out. CC @Inez is looking for community memebrs that would like to be apart of our CQI team. If your are intersted please talk to Bree or Marissa.

Director Notes

Hello,
The holidays are fast approaching and with the season changing please keep in mind the weather. Make sure kids are dressed for those cold days. Please keep in mind the upcoming breaks and full days and register for them through the parent portal or our CC website.
"The next time your mind wanders, follow it around for a while."
Jessica Masterson

(Walking)FIELD TRIP: Winrock Park

Time: 12-2

FULL DAY REMINDERS!!

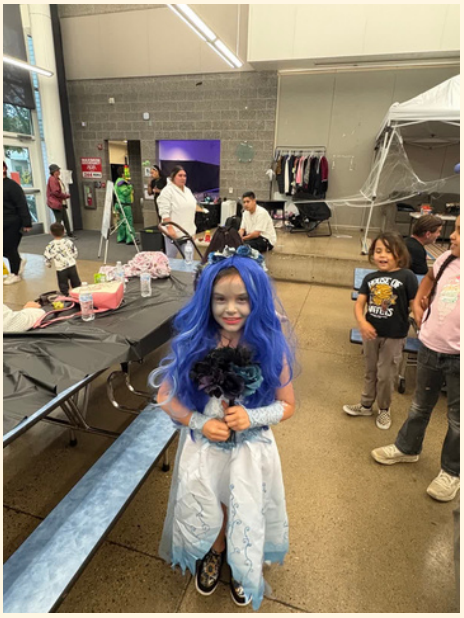

- Bring a lunch
- Bring your ID for check out
- Leave all valuable items at home

What's Happening

Spooky Science Night
Family Night

A spooktacular night of STEM fun. A creepy combination of Halloween and learning. Families enjoyed a night of "Funergy", storytelling, building connections, and creating memories. "This was such an amazing night my children were so excited and had so much fun. We hope we can make this a tradition for the future years to come." Parent

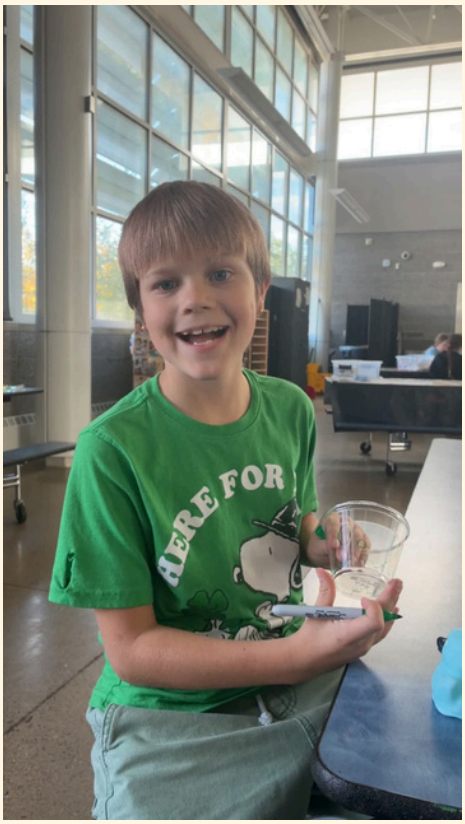

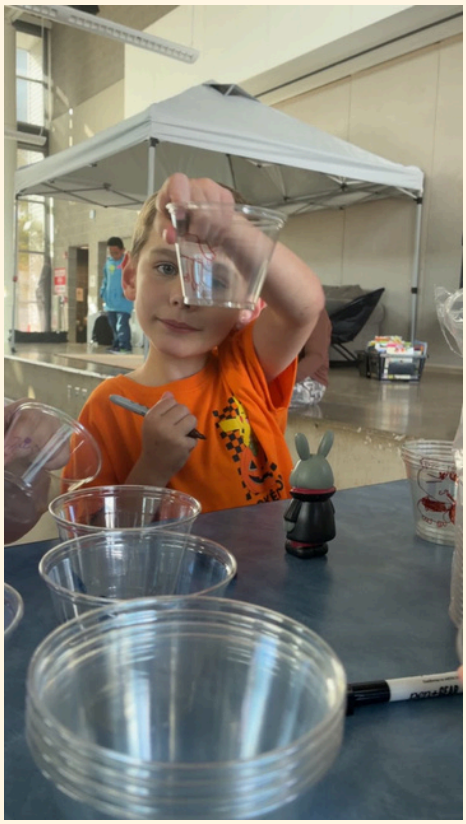

Creepy Decorations

For our Spooky Science Night the kids and staff did a lot of work to prepare for the night. We wanted to come up with some themed snacks and decorations and the kids had all the spooky scary skeleton ideas! We decorated clear plastic cups with spooky characters of all kinds; Frankenstein, ghosts, pumpkins, vampires, and some occasional graves. "It's so cool that our artwork is on these snack cups for all the parents to see! I cant wait to walk around and see who picked my art work." Ripley

All of our snack cups were a hit and everyone enjoyed them.

Origami Skills

The kids made origami bats and skeletons for a fun Halloween activity. They practiced following directions, patience, creativity, and fine motor skills. When some of the folds were difficult, they worked together to problem solve and figure out the next steps. The kids helped each other and kept trying until they got it. While working, Brooks said, "This is tricky, but I think I'm getting it!" We problem solved together and he successfully completed 3 different figures.

Inez Rockets: Soccer Club

The kids participated in Soccer Club, where they practiced teamwork, patience, communication, and problem-solving. When they fell behind in the game or became frustrated, they discussed strategies to help them work through challenges and stay motivated. The kids communicated with one another, and worked together to improve their chances of winning. During the game Gavin was strategizing and said, "We need to pass so we can win!" The kids continued working together, adjusting their strategies, and persevering even when the game became challenging.
